## WORK EXPERIENCE

---

### LOVE QUYCKY, LDA

Junior Software Engineer

Porto, Portugal

September 2024 – Present

- Currently focused on developing and maintaining a TypeScript-based REST API using Node.js, Express, TypeORM, and Redis, with infrastructure supported by Docker and AWS (RDS, EC2, S3). Responsible for implementing new features, improving code quality, and ensuring reliability.
- Leading the development of a Vue 3 and TailwindCSS back-office system used across both Sportiz and the company's main application. The platform supports content management, streamlines publication workflows, and significantly reduces editorial delays for a user base of over 300K.
- Built and optimized multiple responsive web pages with Vue.js, following mobile-first design principles and ensuring consistent behavior across modern browsers.

### FREELANCER / DRAGON COMMISSIONS

Java Game Developer

Remote

June 2021 – February 2023

- Developed 20+ custom Minecraft mods in Java for global clients and YouTubers, introducing gameplay enhancements (e.g., custom mobs, mechanics) that helped videos surpass 1M+ views and boosted audience engagement by 30%.
- Improved delivery and client communication by using tools like Trello and Discord for project tracking and feedback, leading to repeat business and consistently high client satisfaction ratings.

### GUSTAVO VIEIRA VINTAGE WATCHES

Full Stack Developer - Internship

Remote

April 2020 – September 2020

- Built core features for a vintage watch showcase web app using Angular and Firebase, collaborating in a 3-person dev team to meet client design and performance requirements.
- Added multi-language support using Angular i18n, integrated item listings and advanced filtering, improving UI/UX.

### BASICAMENTE DIGITAL

Full Stack Developer - Internship

Amarante, Portugal

September 2017 – July 2018

- Developed custom WordPress plugins and themes, improving functionality and reducing page load times.
- Self-taught CodeIgniter and MVC architecture to contribute effectively to team projects alongside senior developers.
